| Eliopoulos, G. M., 139           | Krahenbuhl, James L., 330 | Powers, Catherine, 245      | Young, Frank E., 377         |
| Franzblau, Scott G., 330         | Krivan, Howard C., 1      | Purtilo, David T., 300      |                              |
|                                  | Lyerly, David M., 1       | Roberts, Glenn D., 349      |                              |

# SUBJECT INDEX

## VOLUME 1

Aminoglycoside antibiotics, 54  
Antibiotic combinations  
testing, 139

*Campylobacter* spp., 157  
*Clostridium difficile*  
disease and toxins, 1

Deoxyribonucleic acid probes, 82

Epstein-Barr virus, 300

Foodborne diseases, 377  
Fungal infections  
azoles, 187  
immunocompromised host, 349

*Haemophilus influenzae*  
antibiotic susceptibility, 218

Human immunodeficiency virus  
diagnostic testing, 124

$\beta$ -Lactamase inhibitors, 109  
Legionnaires disease, 60  
Leprosy, 330  
Lyme borreliosis, 399

Monoclonal antibodies, 313

*Neisseria* spp.  
history, 415  
identification, 415

Pathogenicity and virulence, 40  
Pertussis  
diagnostic methods, 365  
disease, 365

Plasmids  
disease surveillance, 228

Respiratory syncytial virus, 27

Serum bactericidal test, 19  
Staphylococci  
coagulase negative, 281  
methicillin resistant, 173  
*Streptococcus anginosus* ("Streptococcus  
milleri"), 102

Toxic shock syndrome, 432

Urinary tract infections  
rapid detection, 268

*Vibrio* spp., 245
